

4th October Friday Lunch CPD

Continuing Professional Development for GPs

IT Security in General Practice
Presented by: Jeff Hawkes, Director - Your IT Desk
Sponsored by Your IT Desk

This event is also open to Practice Managers and Staff

Speaker: Jeff Hawkes

With nearly 30 years experience in Managed IT Services and Consultancy, Jeff has been an industry leader in managing IT for small to medium business with a particular focus on Health Care. He has provided managed IT services for many General and Specialist practices as well as Divisions of General Practice and Medicare Locals. Jeff's understanding of the unique IT Security requirements in the health care environment firmly places him as one of the 'go to' people when it comes to providing secure managed IT services to the health care industry in Australia.

Learning Outcomes/Topics:

- Describe why you need a secure IT platform in General Practice
Define the protocol for confirming that your IT platform is adequate for your practice's needs
Examine how you could improve your IT platform to protect your data and meet RACGP 5th edition Accreditation Core Standard 6
