

7th February Friday Lunch CPD

Continuing Professional Development for GPs

# Technological Advances in Optical Care

Presented by: Optometrists

OPSM

**Practice Nurses are also welcome at this event**

**Speaker: Anthony Nguyen, Optometrist, OPSM Penrith Plaza**

OPSM Penrith Plaza services the Nepean region providing eye care to all ages. Speakers will provide information to General Practitioners and Practice Nurses about the diagnosis and treatment for: Glaucoma which is the worldwide leading cause of irreversible blindness; Macular Degeneration which affects approximately 1million people in Australia with prevalence expected to double by 2030: Dry Eye which affects nearly 8% of the Australian population; and Diabetic retinopathy diagnosis and treatment as part of a Diabetes Cycle of Care.

**Learning Outcomes/Topics:**

- Define the risk factors and diagnosis of Glaucoma using available new technology
- Describe how technological advances can assist with diagnosis and management of Macular Degeneration
- Examine assessment, management and treatments available for Dry Eye
- Examine the advantages of Optometrist involvement in Diabetes management

**Date:** Friday 7th February, 2020  
**Time:** 12:30pm - 2:00 pm Registration and lunch at 12:30 pm
