

4th February Friday CPD

**Continuing Professional  
Development for GPs**

**Critical Red Flags for Paediatric Communication Developmental  
Delays and Disorders**

**Presented by:**

**Belinda Hill**

**Clinical Director, Belinda Hill & Associates**

**Speaker: Belinda Hill**

Belinda graduated from the University of Sydney with a Bachelor of Applied Science (Speech Pathology). She commenced working in private practice providing assessments and therapy services to children and adults across the scope of the practice. Eager to continue to develop her clinical knowledge, Belinda completed a Masters degree of Applied Linguistics at Macquarie University. Belinda operates her multidisciplinary allied health service in Penrith and the Blue Mountains where she provides clinical services to children and adults as well as mentorship and training to upcoming speech pathologists. Most recently Belinda has served as a Director on the Board of the Nepean Blue Mountains Primary Health Network and as a Director on the Board of Speech Pathology Australia.

**Learning Outcomes/Topics:**

- Identify the major communication red flags of paediatric developmental delays
- Describe how disorders such as autism, global delay and mental health issues can impact paediatric communication developmental delays
- Describe how stuttering and voice disorders can signal paediatric communication development delays

**Date:** Friday 4th February 2022

**Time:** 1:00pm - 2:00 pm

**Venue:** Casuarina Room, Jordan Springs Community Hub, 2-6 Cullen Avenue, Jordan Springs
