

3rd June Friday CPD
Activity ID-303068

Continuing Professional Development for GPs

Acute Eye Presentations in General Practice

Presented by:

Dr Samuel Dance

MBBS, MS (Surgical Anatomy)

Speaker: Dr Samuel Dance

Dr Samuel Dance is a comprehensive general ophthalmologist with sub-specialty training in Cataract and Glaucoma surgery, and medical conditions of the retina including Diabetic Retinopathy, Macular Degeneration and Vein occlusions. He has been a reviewer for the Journal of Glaucoma, lectured at both the University of Sydney, and University of New South Wales, and been an investigator for multiple international clinical trials assessing innovative ocular therapies. He has been appointed to the Ophthalmology Liaison Committee at Glaucoma Australia and is a fellow of the Royal Australian & New Zealand College of Ophthalmologists.

Learning Outcomes/Topics:

- Identify the anatomy of the eye
- Describe the relevant ophthalmic history to be considered when determining if an ophthalmologist referral is required
- Describe the M.A.P. (Movement, Acuity, Pupils) of an eye inspection and optic nerve function examination
- Identify common eye presentations requiring referral to an ophthalmologist
